

FENSA Guidance Notes (4) Fire Egress

Escape in the case of Fire is a key criteria when replacing a window. This flow chart has been extracted from the FENSA Surveyors' Guide and will help you to identify what you need to do to comply with the FENSA requirements in accordance with Building Regulations.

For further information on these Guidance Notes, contact the FENSA technical helpline on 0870 850 9957 or email techhelp@fensa.org.uk

You can also consult the FENSA Surveyor's Guide.
